

GLOBAL DOCUMENT RECOGNITION

Digitronix LLC offers advanced identity verification solutions that recognize a wide range of identity documents across most global jurisdictions. This catalog details the supported document types by country or region. While comprehensive, it is not exhaustive and is regularly updated to reflect new additions and changes.

Our AI-driven IDV system is designed to meet the evolving needs of digital businesses, ensuring fast, secure, and compliant verification for various use cases. At Digitronix, we are committed to delivering reliable service, clear communication, and continuous support in the dynamic field of digital identity.

Disclaimer: This list is provided for informational purposes only. Document acceptance may vary due to regulatory changes, system updates, or client-specific configurations. Our company does not guarantee the verification of all listed documents. For the most accurate and up-to-date information, please contact a Digitronix representative.
